SUMMARY

Mechanical Engineering student with hands-on experience in drivetrain development, CAD modelling, fabrication, and testing through Formula Student projects. Skilled in automotive design, engineering analysis, and cross-functional teamwork, with research contributions in drivetrain systems.

EDUCATION

Bachelor's degree
Sinhgad College of Engineering
2023 - 2026

Diploma
Government Polytechnic,
Aurangabad
2020 - 2023

PROJECTS

Custom Limited Slip Differential - Design & Testing

📅 07/2025 - Present

Final Year Project focused on the design and testing of a Custom Limited Slip Differential

- Performed torque bias ratio estimation, gear geometry considerations, and material selection
- Performed FEA and optimized CAD models using SolidWorks

Sheet Metal Upright - Design & Fabrication

📅 01/2025 - 04/2025

Third Year Project for designing and Fabricated a Sheet Metal Upright

- Engineered an upright using 4 mm 7075 aluminium sheet, achieving weight reduction
- Created a puzzle-style layout that simplified laser cutting,

SKILLS

CAD Modelling (Solidworks,
Catia V5)

Engineering Documentation

GD&T Basics

Design Calculations

Team Management

PUBLICATIONS

“Design, Analysis and Development of a Custom Helical Limited Slip Differential for Formula Student Applications”

Published in International Journal of Engineering Research & Technology (IJERT), Vol. 15 Issue 05, May 2026

EXTRACURRICULAR

Vice-Captain – STES Racing

📅 2024 - 2026

Led drivetrain design, CAD development, testing, and subsystem integration for the Formula Student vehicle while coordinating technical activities across the team. Represented the team as both a driver and engineering lead at Formula Bharat 2025 and Formula Bharat 2026, contributing to vehicle development and competition events.
